Cornwall Borough News

2008 Fall/Winter Newsletter

Office Hours:

Monday–Friday 7:00 a.m. to 4:00 p.m.

Website: www.cornwall-pa.com

Leaf Collection

Leaf collection will start the week of October 13th and end the week of December 12th, weather permitting. Any area farmer wishing to make use of the leaves please contact the Borough Office prior to October to make the necessary arrangements.

Leaf Pick-up Schedule

Monday—Maple Lane, Fairview Estates and North Cornwall

Wednesday—Karinchville, Toytown and Cornwall Center

Friday—Starners Development, Anthracite, Rexmont, Minersvillage and Burd Coleman

There will be no leaf pick-up on November 27th & 28th. Also, a reminder that there will be no leaf pick-up in areas zoned Residential Forest.

BOROUGH ORDINANCES

Responsibility for enforcement of Borough Ordinances, with the exception of zoning and Board of Health issues, rests with the Police Department. Listed below is a summary of those Borough Ordinances resulting in the most inquiries. If you have questions or need additional information about these or any Borough Ordinances, contact the Police Dept.

Burning Regulations

No person, or persons shall set or maintain any fire upon any of the streets, sidewalks, alleys or public grounds in the Borough, or burn or cause to be burned thereon any paper, boxes, rubbish, leaves or other materials or substance of any kind.

Out-of-door fires shall be permitted, upon private property, in those parts of the Borough outside the fire limits as hereafter constituted, on Tuesdays, Thursdays and Saturdays only, excluding national holidays.

Every such out-of-door fire shall be built in and confined to a non-combustible container, covered with a screen of 1/2" or smaller mesh, or in such other suitable non-combustible container, unless attended at all times. No such fire shall be closer than 15' from any building or from any property line.

Trees, Bushes, Shrubs

All trees, bushes and shrubs on or along a property must be kept trimmed by the property owner so as not to interfere with street lighting or pedestrian traffic. Trees overhanging Borough streets must be kept trimmed so that a height clearance of at least 14' exists.

Nuisances

The Borough has a general nuisance ordinance covering a broad range of activities which, other than infrequently, causes or results in annoyance or discomfort to persons beyond the boundaries of the property, or disturbs or interferes with the peaceful uses of the property of others within the Borough. The word "nuisance" shall include, but not limited to:

- ◆ Loud playing of stereo equipment, amplifiers, boom boxes, etc.
- ◆ Frequent howling/barking of dogs, particularly between 10:00 p.m. and 6:00 a.m.
- ◆ Building/road construction or excavation or operation of heavy equipment/trucks between 7:00 p.m. and 7:00 a.m.
- ◆ Tracking dirt/mud onto adjacent properties or streets.
- ◆ Use of property so as to permit smoke, soot, ash, dust, cinders, acid or noxious fumes to be carried off the property as to cause an annoyance to adjacent properties.

Abandoned Articles

It is unlawful for any property owner to accumulate or store any junked, abandoned or discarded vehicle, trailer, boat, appliance or household furnishing on public or private property within the Borough.

Snow on Streets

It is unlawful for any person to place, plow or push any snow, ice or slush, whether manually or otherwise, upon or across any street in the Borough.

If a property owner contracts with someone to remove snow from their driveway or sidewalks, they should be made aware of this ordinance.

Requests for File Retrieval

Please allow a minimum of 48 hours when requesting the retrieval and copying of documents from borough files or archives. This has become necessary due to an increased demand for retrieval and copying. The present charge remains at 10 cents per copy.

PERMITS

Building Permits

Residents are reminded to contact the Lebanon County Planning Department at 274-2801 for all construction permits. Please call ahead for an appointment for assurance that someone will be available to meet with you. The only exception being a Driveway Permit, which can be obtained at the Borough Office.

Water/Sewer Permits

Residents are required to get a Water & Sewer Permit with the Municipal Authority at the Borough Office, before you get your Building Permit to construct a new house, if water and sewer are available in your area. Some additions require extra sewer EDU's (equivalent dwelling unit).

**PA One Call...
"Call Before You Dig"
811**

This is a very important phone call for anyone who plans to do any type of digging or excavation. All projects are to be reported to this system before any type of digging takes place. Remember to call before you dig. "It's the Law."

Planning & Zoning Commission

Borough Ordinances Have Been Amended and Re-enacted

On June 9, 2008, Cornwall Borough Council amended and re-enacted the Borough's Zoning Ordinance/Zoning Map and the Borough's Subdivision and Land Development Ordinance. Summaries of the changes to the two Ordinances are as follows:

Proposed Zoning Ordinance Amendments

1. Add/revise several definitions.
2. Revise the minimum required lot area for "municipal uses" in the Residential Low Density and Residential Medium Density Districts from 3 acres to 1 acre.
3. Revise the Planned Development District regulations to clarify the required residential unit mix.
4. Make major revisions to Article 21 – Historic Overlay District re: Architectural Compatibility and Buffer Areas. Highlights of the major changes are as follows:
 - Add definition of "Architecturally Compatible."
 - Delete the Village of Anthracite from the District.
 - Limit the allowable residential dwelling types in the Historic Overlay and Buffer Areas to single family detached dwellings, single family semi-detached dwellings and conversion apartments.
 - Add specific "architectural compatibility" requirements for new construction and/or additions in the Historic Overlay and Buffer Areas. Requirements include restrictions related to (1) Height, (2) Scale, (3) Setback and Rhythm of Spacing, (4) Materials, Texture, Details and Material Color, (5) Roof Shape, (6) Orientation, (7) Proportion and Rhythm of Openings and (8) outbuildings.
 - Add additional requirements specific to each of the three Historic Overlay Districts [such as building footprint size, roof pitch, orientation, façade materials].
 - Add procedures for "architectural compatibility" review by Borough officials.
5. Revise Section 2201 to allow detached accessory buildings and structures in "front yards" on lots with lot areas of 2.4 acres or more.
6. Revise Section 2207 to require the finished/decorative sides of fences to face the adjoining property.
7. Add new Section 2222 (Minimum Dimensional Requirements for Flag Lots) to exclude the area of the "flagpole" from the minimum required lot area.
8. Add language to Section 2412 that references the design requirements of the Subdivision and Land Development Ordinance related to parking lot construction.
9. Regulate multiple driveways for single family detached and two family dwellings and limit driveway grades to a maximum of 15%.
10. Update prerequisite permit requirements related to applications for building and zoning permits.
11. Add Historic Overlay Buffer Area Maps for Burd Coleman, Minersvillage and North Cornwall.
12. Revise the Zoning Map to reflect the mapped Historic Overlay Buffer Areas – and delete the Historic Overlay District from Anthracite.

Subdivision and Land Development Ordinance (SALDO) Amendments

1. Revise the definition of "Lot Area" for Flag Lots.
2. Add requirements for (1) reduced copies of approved plans for construction purposes and (2) digital versions of approved plans for updating of Borough maps.
3. Revise street construction requirements to reflect the use of "Superpave" materials.
4. Clarify the requirements for the construction of sidewalks.
5. Allow an exception for the dedication of recreation land/payment of fees in certain situations.
6. Preclude the sale of recreation fee credits.
7. Revise the wording on several application forms.

Copies of the updated ordinances are available for purchase at the Borough Office.

Leaf Collection Regulations

DO...

- ◆ Check the schedule to know when your collection days are.
- ◆ Rake leaves out 2 feet away from the curbing (if possible) or to the edge (if uncurbed) in a long row type pile.
- ◆ Piles to be collected should be placed away from mailboxes, trees and gardens.
- ◆ Be aware that the collection is for leaves **ONLY** and any other debris may cause injury and will damage or break the equipment and will be left behind.
- ◆ Phone the office at 274-3436 if you have any questions.

*See Leaf Pick-up
Schedule on Front*

DO NOT...

- ◆ Do not place sticks, twigs, grass clippings, brush, plants or garden trimmings in leaf pile.
- ◆ Do not bag leaves.
- ◆ Do not cover leaves with tarps that are weighted with bricks, blocks, etc. on the day of collection. All coverings and weights must be removed from the area where the leaves are piled.
- ◆ Please do not expect the road crew to "wait" until you push your leaves out to the curb. They are trying to maintain a schedule.
- ◆ Please do not ask for individual pick-ups. If you miss the scheduled date, try to make the next scheduled day for your area.

If your area is missed due to a holiday, the road crew will be there the following work day.

If your town is missed due to heavy loads, the road crew will be there the following day, even if it is not a scheduled day. Also, if the road crew shows up a day before your scheduled day they will be there on your area's scheduled day.

Winter Safety Driving Tips

1. Stay back at least 250', when following equipment that is plowing or cindering & is displaying a flashing amber light.
2. Always follow in a manner that the equipment operator can see you in his side mirrors.
3. Turn on headlights to make your vehicle more visible.
4. Snow removal equipment may have to slow down, stop, or backup.

BEWARE!

5. Do not pass a plow.
6. **SLOW DOWN AND DRIVE DEFENSIVELY!**

Christmas Tree Recycling

The Borough will offer a FREE Christmas Tree drop-off in a designated area at the Borough Highway Garage until February 9, 2009. Trees must be cleaned of all ornaments, tinsel, etc. All trees 10' or more **must** be cut in half. Christmas tree bags **will not** be accepted.

Portable Basketball Units

A reminder to residents with portable basketball units. All units must be moved off the Borough's right-of-way so that they do not interfere with plowing of snow.

Suggestions During Snowstorms

- ◆ By complying with your local ordinances & regulations.
- ◆ By removing vehicles from the street during storm where possible.
- ◆ By waiting until after the street is plowed before cleaning driveway openings.
- ◆ By cleaning sidewalks & helping with crosswalks.
- ◆ By not shoveling snow out into the streets.
- ◆ By making sure your vehicles are equipped for winter driving.
- ◆ By reviewing your hazardous conditions driving habits.
- ◆ By clearing away from fire hydrants.

Mailboxes and Snow

Heavy snow as it is plowed will occasionally damage or topple mailboxes. Often it is because they are too close to the road-way or were poorly constructed or supported. Mailboxes should be no closer than 6" from the edge of the road. Heavy, wet snow exiting the plow increases the potential for mailbox damage. The repair of mailboxes is the property owner's responsibility since the right-of-way extends further onto your property that you realize. The Highway Department makes every effort not to damage property, but it does happen.

Snow Removal

The Highway Department prepares year round for winter. We are doing everything from sealing cracks, grading shoulders, cleaning gutters to maintaining winter equipment and setting up cindering and plowing runs.

We understand winter driving can be a trying time. The road crew tries hard to do the best & quickest job possible to make your roads safe & clear.

For winter storms a Borough Vehicle is assigned to a section. Cindering & plowing runs are set up to clear the main roads and the more heavily traveled roads first then the secondary roads & developments are taken care of.

Snow plowing will not begin until enough snow has accumulated on the roadway and the salt applied has been given time to work. The snow plow drivers will attempt to keep roads passable until the storm stops. Then they will start the procedure of pushing back the snow. This is the phase where all the streets are cleaned curb to curb or back off the shoulder, intersection & cul-de-sacs are also cleaned up. The Borough maintains 43 miles of road, 5 miles of state roads & 13 cul-de-sacs, so this process takes some time. Please be patient!

Vehicle parking is always a concern for residents & our drivers. If at all possible, park off the road in your driveway & if you must park along non-curbed roads try to be off the shoulder & have cars moved to make plowing operation a whole lot easier. Please do not shovel snow back out on the road, this creates a hazard for the traveling public & your neighbors.

Community Fire Company

PO Box 66
50 Rexmont Road
Cornwall, PA 17016

www.cornwallfire.com
Phone: 717-273-8172
Fax: 717-273-6917

With Fire Prevention Week right around the corner, October 5-11 2008, the Community Fire Co. of Cornwall Borough would like to remind you and your family of a few things you could do around the house to keep your home safe from fire.

- Install and Maintain smoke detectors and carbon monoxide detectors. Batteries in these devices should be changed twice a year.
- Extinguish all candles when leaving the room or going to sleep
- Keep candles away from items that can catch fire (e.g. [clothing](#), books, paper, curtains, [Christmas trees](#), flammable decorations). As an alternative to regular candles the Fire Company sells Fire Safe Flameless candles as a fundraiser. Please see our website for more info www.cornwallfire.com
- Don't place lit candles in windows, where blinds and curtains can close over them
- Install and maintain a fire extinguisher in the house that can extinguish small common fire around the house. IE: Grease fire, waste can, clothing and paper. Use the "PASS" method when operating a fire extinguisher. P – Pull the pin, A – aim at the base of the fire, S – Squeeze the handle, S – sweep the nozzle side to side. The fire extinguisher must be properly rated to do these jobs.
- Have wood stove and fireplace chimney checked annually and cleaned and as often as inspections indicate.
- Keep space heaters at least three feet (or one meter) away from anything that can burn.
- Fuel portable kerosene heaters in a well-ventilated area away from flames or other heat sources, and only when the device has cooled completely. Use only the type of kerosene specified by the manufacturer, and never use gasoline.
- Portable space heaters should be turned off every time you leave a room or go to bed.

Help us help you.

- Install reflective house numbers or sign. This is an ordinance in Cornwall Borough. As an option the Community Fire Co. of Cornwall Borough does sell reflexive address sign. For more information call 273-8172 or check us out on the web at www.cornwallfire.com.
- Please keep hydrants near or in front of your house clear from debris and snow.

These are just a few examples of things that can be done around the house to make your family safer. We hope you have a safe and happy fall and winter seasons.

Regards, The Community Fire Company of Cornwall Borough
Fire Chief – Andrew Ventura Assistant Chief – Dominic Tribioli
Deputy Chief – Stephen Mendoff Captain – Phillip Schaeffer

POLICE DEPARTMENT

Phone: 274-2071

Chief of Police Bruce Harris	Sergeant Brett Hopkins
Secretary Stephanie Burris	
Officers Gregory Bender James Conklin Ryan Sweigart David Troxell	Candace Miller Danielle Perry Robert Peebles Stanley Finicle

VIN ETCHING

The Police Department will offer free **VIN Etching** on Saturday, October 11th, from 11:00 AM – 2:00 PM at the Municipal Building. Sponsored by the Pennsylvania Auto Theft Prevention Authority, **VIN Etching** is the process of chemically etching a vehicle's identification number onto all windows of the vehicle. **VIN Etching** does not harm the glass and does not detract from the visual appearance of the vehicle. It is a simple process that takes only a few minutes after which stickers are applied to the front driver and passenger windows, warning thieves of the vehicle's VIN Etched status, which makes it less appealing to a thief.

In order to avoid waiting and have an orderly event, please call the police department at 274-2071, or e-mail bharris@cornwallpd.org to schedule your vehicle(s) for etching. Appointments will be set-up between 11:00 AM – 2:00 PM for the October 11th event.

CHILD SAFETY SEATS

If you have a child safety seat in your vehicle and want it inspected for proper installation; or have questions concerning use of the seat, contact Ptlm. Jim Conklin at the police station at 274-2071, or jconklin@cornwallpd.org. Ptlm. Conklin is certified as a Standardized Child Passenger Safety Technician.

E-mail Database

The police department has established an e-mail database to notify residents of Community Policing Activities, such as National Night Out, bicycle rodeos, r.a.d. KIDS Program, VIN Etching, child ID Cards and public education programs. It may also be used to alert residents to a major incident and/or seek assistance from the community in solving a crime. If you wish to be included in this database, send an email with your first and last name and your email address to bharris@cornwallpd.org.

NATIONAL NIGHT OUT

National Night Out, the department's largest community policing event of the year, was held Tuesday, August 5th. Our 12th annual event was a tremendous success, with a record attendance of Cornwall Borough, West Cornwall Township and Mt. Gretna Borough residents.

In the week preceding *National Night Out*, the event received some adverse publicity regarding the salary and benefits of the Executive Director of the National Association of Town Watch (NATW), the sponsoring organization of *National Night Out* (NNO). Our police department, and every other law enforcement agency in the country that hosts a NNO event, receives zero financial support from NATW. Our department pays an annual \$25.00 membership fee to NATW, for which we receive a promotional packet and permission to use the NNO logo on flyers and brochures, but not on clothing or other items. All give-away items bearing the NNO logo are purchased from NATW by the police department.

It is through the generous support of dozens of businesses and individuals, not due to any support received from NATW, that we are able to provide an enjoyable, fun-filled and informative *National Night Out* event.

Next year's event will be Tuesday, August 4th. Look for additional details in the Spring 2009 newsletter.

Gun Locks

Firearms Safety Kits, which include a gun lock, are still available at the police department. The kits are provided free of charge through a partnership with "Project Child Safe", a nationwide firearms safety education program.

Credit Reports

Residents are reminded that they are entitled to a free credit report once every 12 months from each of the three nationwide consumer reporting companies: Equifax, Experian, and TransUnion. Credit reports may be obtained in three ways:

- On the secure website: www.annualcreditreport.com
- By telephone: 877-322-8228
- By mail through request forms available at the police department.

Cell Phones

If you have an old cell phone to dispose of, a collection box is located in the vestibule of the Municipal Building. Proceeds derived from recycling these phones are used to help fund Community Policing Programs, such as National Night Out.

r.a.d.KIDS

The **r.a.d. (resist aggression defensively) KIDS** Program is a 7 ½ - 10 hour family centered safety education program designed for children from ages 5 -12 along with their parents or guardians, that emphasizes essential decision making skills as well as physical resistance options to escape violence. **R.a.d.KIDS** is not a martial art but a program that trains children with the realistic skills to recognize, avoid, resist, and when necessary, escape physical violence and/or harm.

Although preventing child abduction is the main goal, curriculum topics include: home & internet safety, bullying, vehicle safety; out & about safety; good-bad-uncomfortable touch; stranger tricks; and self realization of personal power with dynamic simulation.

Dates for the **r.a.d.KIDS** FALL/WINTER classes are scheduled as follows:

Class #1 - November 11, 12, 13, 18, 20 & 22

Class #2 – February 24, 25, 26 March 3, 5 & 7

5 – 7 year olds - 5:00 – 6:30 p.m.

8 -12 year olds - 6:45 – 8:30 p.m.

Both classes will join together Saturday morning at 9:00 to present to the parents and guardians, the simulation portion of the **r.a.d.KIDS** program. The simulation portion of the program will take approximately 2 ½ - 3 hours with the presentation of their graduation certificates & t-shirts. **Attendance at all five classes is mandatory to participate in graduation/simulation exercises.**

The **r.a.d.KIDS** education program & simulation training will be taught by Certified Instructors Officer Candace Miller and Secretary Stephanie Burris. Cost for the program is \$20.00 for the first child, \$10.00 for each additional child. Remember, if your child has completed a prior class, they may still participate until their 13th birthday for free. Scholarship plans are available. Class sizes are limited.

For more information, or to register your child, (children), for **r.a.d.KIDS**, contact department secretary Stephanie Burris at (274-2071) or e-mail (sburris@cornwallpd.org).

r.a.d.KIDS has been featured on The Today Show, America's Most Wanted, Good Morning America, CBS News and CNN Primetime. For more information about this nationally recognized program, please visit www.radkids.org.

Police Yard Sale

You asked – we answered! For those of you who missed the spring yard sale, a fall yard sale will be held Friday September 26th & Saturday September 27th. The yard sale benefits our holiday Adopt-A-Family Program and we need **your items** to sell. So gather up those things you no longer use/need and donate them to a good cause. All items must be in *clean and usable* condition. **NO CLOTHING ITEMS!** Your participation in this event is what makes it a success. We will start collection of donations the week of September 15th. Call Stephanie at 274-2071 to arrange for drop-off of your items. *Thank you for your continued support!*

R.A.D. FOR WOMEN

R.A.D. For Women, a basic physical defense program whose primary focus is the realistic development of self-defense options for women, before and during situations of imminent or actual attack/assault, is being offered for the first time by the police department. By bringing together the elements of education, dependency on self, responsibilities in decision making and realization of physical power, this training is a means to empower the women who receive it.

The 12 ½ hour course will be taught by Ptlm. Candace Miller, a certified R.A.D. Instructor.

Dates for the first course are:

January 17th, 24th, 31st, February 7th, 14th.

All are Saturdays, and will involve a 2 ½ hour block in the morning, with the location to be announced.

Cost for the course is \$25.00. Minimum age to attend the course is 16.

For additional information, or to register for the course, call the police department at 274-2071, or send an e-mail to bharris@cornwallpd.org.

R.A.D. FOR Seniors

A self defense program for senior citizens is now offered by R.A.D. Systems. Since this is a newly instituted program, only a limited number of instructor development classes are currently scheduled. As instructor classes become available, Ptlm Candace Miller & Secretary Stephanie Burris will attend to become certified in teaching R.A.D. for Seniors. Additional information will be in the Spring 2009 Newsletter.

MUNICIPAL AUTHORITY

Phone: 274-5441 cornwallmunicipalauthority@comcast.net

Budget Approved

The Authority at the August 18, 2008 meeting adopted the budget for the coming year. The budget is available for review at the Authority Office.

Water Savings – Some Hints to Ponder

The amount of savings depends on current water consumption habits, energy costs, current flow rates of fixtures and flush volumes of toilets, and the amount of water leakage through fittings and toilets.

The following chart highlights how much water can be conserved by installing water-saving equipment.

Fixture/Fitting/ Appliance	Water Use In Gallons Per	
Vintage Toilet*	4-6	flush
Conventional Toilet **	3.5	flush
Low Consumption Toilet ***	1.6	flush
Conventional Showerhead*	8-10	min
Low-Flow Showerhead	2-2.5	min
Faucet Aerator*	3-6	min
Flow Regulating Aerator	.5-2.5	min
Top-Loading Washer	40-45	load
Front-Loading Washer	22-25	load
Dishwasher	8-12	load

* Manufactured before 1978; ** Manufactured from 1978 to 1993; *** Manufactured since January 1, 1994

A dripping faucet is more than annoying . . . it is expensive. Even small leaks can waste significant amounts of water.

Leaks inside the toilet can waste up to 200 gallons of water a day. Toilet leaks can be detected by adding a few drops of food coloring to water in the toilet tank. If the colored water appears in the bowl, the toilet is leaking.

Over the winter months, check your lines and meter for signs of freezing. A frozen meter is a leaking meter. If this should occur, contact the Authority office immediately.

If you suspect you have a leak, the ultimate tip we can offer is to do the following:

1. Make sure no one is using water
2. Make sure your appliances are not drawing water
3. Go to your meter location
4. If the red indicator is spinning water is passing through your meter and you have a leak.

WINTER REMINDER
 With Winter coming soon we would like to remind residents who live near fire hydrants to keep them free of snow and make sure the markers can be seen.
 Thank you,
 Water Department

Authority Seeking Part-Time Help

The Cornwall Authority is currently accepting application for office help. A high school diploma or GED equivalent is required. Any interested person may stop by the Authority office to pick up an application.

WATER LEAK REFERENCE TABLE

LEAK THIS SIZE		LOSS PER DAY* (GALLONS)	LOSS PER YEAR* (MILLION GALLONS)
	1/16"	980 (1,310)	0.35 (0.48)
	1/8"	3,975 (5,300)	1.5 (1.9)
	1/4"	15,900 (21,200)	5.8 (7.7)
	3/8"	35,900 (47,800)	13.1 (17.5)
